AVIENT SOLUTION

OnFlex™ LO Thermoplastic Elastomer

WHY AVIENT?

- Reduced processing steps and lowered energy costs for the molder
- Achieved targeted odor levels and met VOC / FOG performance and compression set standards

LEARN MORE

KEY REQUIREMENTS

- Eliminate post treatment heating of parts to achieve required odor level (≤ 3.0 VDA 270)
- Lowest VOC / FOG performance (VDA 278) at the same compression set as previous material
