

## LIGHTWEIGHTING + COLORABILITY

# CONSUMER & AEROSPACE MOLDERS METALLIC-EFFECT SULFONE SOLUTION

## AVIENT SOLUTION

Colorant Chromatics™ and BASF Ultrason®  
high-performance polymers in metallic colors

## WHY AVIENT?

- Created a variety of food contact-approved, brilliant metallic effect colors such as gold, silver, and bronze for optimal aesthetics
- Ensured excellent mechanical performance after repeated steam sterilization and harsh chemical cleaning cycles
- Offered low MOQ with flexible supply options

## [LEARN MORE](#)

## KEY REQUIREMENTS

- Metallic appearance
- FDA-food contact compliance\*
- Resistant to repeated washing, steam sterilization, and chemical disinfection cycles
- Easy processing to meet flexible design requests
- Lightweight to support a reduction in carbon emissions
